

## CANNIBAL

222BV-03 S3 CI HI HRO ESD SRC

Standard EN ISO 20345:2011

Sizes 38-48

	SRC Slip resistance
	A Antistatic
	P Perforation resistance
	Resistant to an impact of 200 Joules and compression of 15Kn
	E Energy absorption at the heel part
	FO Fuel oil resistance sole
	WRU Water penetration resistant upper
	HI Heat insulation of the sole
	CI Cold insulation of the sole
	HRO Heat resistant outsole

Exotech is a woven / non-woven fabric made nylon fibers. The outcome is a breathable shoe with excellent sweat control and high abrasion resistance.

Two-component ICON PU-RUBBER VIBRAM® sole, guarantees maximum grip and stability on difficult uneven grounds. Slip-resistance sole tested to the SATRA laboratories on metal grating and wooden scaffold boards.

### ICON PU-GOMMA VIBRAM®

- Outsole in Rubber Vibram® HRO
- Designed for the use with crampons
- High slip resistance
- Wide, profiled, slip-resistant waist area

Reflective material.

Full grain Idrotech leather with high water resistance properties.

Maximum stability and durability thanks to TPU protective element in the heel area.

Esolight 1.0 polyurethane midsole with reinforced Over cap. The low-density micro-cell polyurethane increase energy absorption ensuring comfort and lightness.

PZX fiberglass toe cap and anti-puncture Txzero textile insert for extreme lightness, protection and flexibility.

### T-01

- Anatomic insole for more comfort
- Supporting PU foam = Dissipation and Energy Return
- Fully lined with conductive micro-perforated fabric to reduce foam wearing
